Experience & Education

I studied Psychology and education at the University of Oklahoma and Education for a year at Austin Community College. I have been working in marketing and promotions for 3 ½ years working with companies such as RAM, Chevrolet, TXU Energy and other local and national retailers. I have both sales and customer service experience and love bringing interest in the consumer to a brand. I enjoy interacting with people; I have no fear of crowds or talking to strangers. I love to meet new people and to share a good laugh. I am very outgoing and positive! I love taking on new opportunities, challenges and experiences. It is my goal to be an asset and a key player in any team I am a part of, I look forward to being a part of your team!
