THESE ARE SOME BUT DEFINITELY NOT LIMITED TO AFTER 15+ YEARS!

## HI, I'M ASH!

I began modeling at sixteen, starting with hair shows and bridal runway work before expanding into the auto show world as a brand ambassador and product specialist. Over the years, I have represented major automotive companies with Chevy being my longest-running and most notable client on both the auto show and drag racing circuits.

Throughout my career, I have continued to model for hair, beauty, and bridal brands, while also building a strong background in live events, tradeshow, and consumer engagement. After taking time away to raise my family in Key West, I remained active in the marine industry—working boat shows and powerboat races between the Keys and Miami, including serving as a tradeshow model and eventually stew for HCB Yachts.

Now based in Charleston, I am actively seeking new opportunities in modeling, product representation, and brand ambassador roles. With my experience in automotive and marine events—and my personal passion for the outdoors as an avid deer and duck hunter—I am especially interested (but not limited to) in working with up-and-coming boat shows, outdoor brands, and fishing or sporting companies.
